

Clash MMO Player Guide v2.0 - Actual Codebase Edition

What Clash MMO Is

Clash MMO is a Discord progression MMO built around persistent player profiles in `mmo_state.json`. Players collect Gold, Elixir, Dark Elixir, Gems, Raid Medals, Clan XP, ores, gear, heroes, cosmetics, and marketplace items through slash commands.

Core Loop

Start with `/village`, `/daily`, `/farm`, `/train`, `/raidvillage`, `/cooldowns`, and `/upgradehall`. As you progress, add `/raiduser`, `/bossattack`, heroes, gear, marketplace, territories, cosmetics, and black market.

Main Resources

Gold is the main spendable currency. Clan XP is account progression used by upgrades. Elixir and Dark Elixir support advanced progression. Gems are premium utility. Raid Medals are raid-oriented. Shiny, Glow, and Starry Ore support gear/equipment progression.

Territories

Territories are the clan map-control loop. Use `/territorymap` to see regions, `/claimterritory` to claim, `/attackterritory` to contest, and `/territoryincome` to collect Gold from owned regions. Patch 47 added a 6-hour income cooldown and clearer system messaging.

Clan War

Clan War is separate from territories. Clan War is match/event performance: war status, war starts/ends, attacks, MVP tracking, and war-based rewards. Territories are persistent map ownership; Clan War is event performance.

Cosmetics

Cosmetics are identity/flex rewards like banners, borders, titles, and effects. Patch 47 made cosmetics more useful by adding small visible perk metadata and fixing `/grantcosmetic` result handling.

Black Market

Black Market is a rotating rare-gear shop and Gold sink. Use `/blackmarket` to view stock and `/blackmarketbuy` to buy gear. This gives players a targeted gear option while removing Gold from the economy.

Command Help

Use `/systemguide` for long explanations and `/glossary` for quick lookup. These commands were added so players can understand systems inside Discord.

Admin and Docs

The repo now includes generated docs and tools: `COMMAND_REFERENCE.md`, `COMMAND_FILE_MAP.md`, `ARCHITECTURE_AUDIT.md`, `MMO_STATE_SCHEMA_GENERATED.md`, `RESOURCE_FLOW_GENERATED.md`, and balance docs. Use `tools/generate_clash_mmo_docs.py`, `tools/generate_repo_audit.py`, `tools/generate_data_schema_docs.py`, and `tools/generate_balance_docs.py` to regenerate them.

Discovered Command Snapshot

/achievements - View your economy achievements

/adminclearcooldowns - Owner: clear a member's Clash MMO cooldowns

/admingivegear - Owner: give a player a gear/item entry

/adminreset - Owner: wipe a player's Clash MMO data from mmo_state.json

/adminset - Owner: GM edit any MMO player value by field/path

/adminview - Owner: privately view a member's complete MMO profile

/attackterritory - Attack a territory region

/balance - View your coin balance

/battlepass - View battle pass rewards

/blackmarket - View rotating black market stock

/blackmarketbuy - Buy gear from the rotating black market

/bossattack - Attack the active auto-spawned MMO raid boss

/bounty - Place a Gold bounty on a member

/buy - Buy an item from the Gold shop

/claimpass - Claim your battle pass rewards

/claimterritory - Claim a territory region

/clanbank - View the shared clan economy bank and upgrades

/clandonate - Donate Gold from your balance into the clan bank

/clanupgrade - Spend clan bank Gold on a clan upgrade

/coinleaderboard - View the top coin earners

/cooldowns - View which MMO commands are ready or on cooldown

/cosmetics - View your cosmetic collection

/craftingpreview - Preview future crafting, salvage, upgrade, and reroll systems

/daily - Claim your daily MMO rewards

/dropstatus - View the current loot drop status

/economyadmin - Leader tools for fixing and testing the economy

/economyhelp - Show the Clash MMO economy command loop

/endwar - Leader tool: end current Clan Wars match

/equipability - Equip a hero ability

/equipcosmetic - Equip a cosmetic you own

/equipgear - Equip gear to a hero

/eventstatus - View current procedural event

/farm - Farm resources from nearby dead bases

/gear - View your heroes and equipped gear

/gems - View and spend Gems to clear Clash MMO cooldowns

/generateevent - Generate an AI world event

/glossary - Look up Clash MMO terms and systems

/grantcosmetic - Leader tool: grant a cosmetic to a member

/heroes - View your hero roster

/inventory - View your purchased shop items

/joinraid - Join the active auto-spawned MMO raid

/league - View your ranked league profile

/market - Browse active player marketplace listings

/marketbuy - Buy a player marketplace listing

/marketcancel - Cancel one of your active marketplace listings

/marketeconomy - View MMO market inflation, scarcity, and drop-rate analytics

/marketsell - List one of your gear items on the player marketplace

/marketstats - View marketplace economy stats

/openchest - Open a chest from your inventory

/pvphelp - Show PvP economy commands

/raidstatus - View the current auto-spawned MMO raid boss

/raiduser - Raid another member's village for Gold

/raidvillage - Attack a random NPC village for loot and XP

/ranked - Play a ranked PvP match

/resetdrop - Reset the current loot drop state

/resolveevent - Resolve an AI world event

/revenge - Revenge raid the last member who raided you

/salvage - Salvage unwanted gear into Clash resources

/seasonleaderboard - View the seasonal leaderboard

/seasonstats - View your seasonal ladder stats

/setactivehero - Set your active hero for stats and gear drops

/shop - View the Gold shop

/spawnloot - Manually spawn a loot drop in the Clash MMO channel

/startevent - Leader tool: start a procedural economy event

/startwar - Leader tool: start a clan war season match

/systemguide - Explain what major Clash MMO systems are for

/territoryincome - Collect territory resource income

/territorymap - View the clan territory map

/tradeaccept - Accept a pending trade sent to you

/tradedecline - Decline a pending trade sent to you

/tradeoffer - Offer one of your gear items to another player for Gold

/trades - View your pending player trades

/train - Train your army and gain MMO progress

/upgradecosts - View your next Town Hall upgrade cost

/upgradegear - Upgrade gear up to +12 using Clash resources

/upgraderhall - Upgrade your MMO Town Hall using Gold, Elixir, and Clan XP

/upgradehero - Upgrade one of your heroes using Dark Elixir

/useitem - Use or activate an item from your inventory

/village - View your Clash MMO village profile

/warattack - Make a clan war attack for points
